

# RAISING THE STANDARD FOR BEC RESPONSE:

SECURITY CONFIGURATION SNAPSHOT NOW DELIVERED FREE AS PART OF BEC INVESTIGATIONS

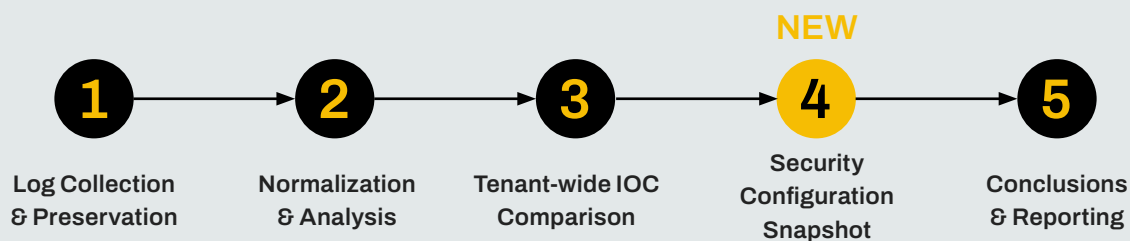

Majority of BEC incidents are worsened by poor email security configuration. We evaluate your email & cloud ecosystems against BECs at no additional cost.

We've condensed frontline threat intelligence from responding to 1000s of BEC incidents to create an automated snapshot of key email and cloud security configurations. The snapshot identifies weaknesses allowing most common BEC attack patterns, providing immediate configuration recommendations post-engagement. Plus:

- Snapshot requires no additional client involvement or permissions to run
- Available for M365 and Google Workspace

## BEC Response Has Evolved:

Automated security configuration snapshot seamlessly integrates with investigation flow to help minimize the impact of BEC incidents.

# THOROUGHLY COVERING EMAIL & CLOUD ECOSYSTEM CONFIGURATION

Merging frontline intelligence from 1000s of BEC IRs and CISA's Secure Cloud Business Applications (SCuBA) project.

## Sample Google Workspace deliverable

BASELINE CONFORMANCE REPORTS	DETAILS		
<a href="#">Google Calendar</a>	4 passes	1 failure	1 manual check
<a href="#">Google Chat</a>	7 passes		1 omitted
<a href="#">Google Classroom</a>	6 passes		
<a href="#">Common Controls</a>	12 passes	6 failures	14 manual checks
<a href="#">Google Drive and Docs</a>	10 passes	3 warnings	3 failures 1 omitted
<a href="#">Gmail</a>	25 passes	2 warnings	5 failures 13 manual checks
<a href="#">Groups for Business</a>	6 passes	1 warning	
<a href="#">Google Meet</a>	5 passes		
<a href="#">Rules</a>	3 passes	1 failure	35 manual checks
<a href="#">Google Sites</a>	1 pass		

## Sample M365 deliverable

BASELINE CONFORMANCE REPORTS	DETAILS			
<a href="#">Azure Active Directory</a>	4 passes	4 warnings	18 failures	4 manual checks
<a href="#">Microsoft 365 Defender</a>	1 pass	7 warnings	8 failures	4 manual checks
<a href="#">Exchange Online</a>	6 passes	2 warnings	6 failures	27 manual checks
<a href="#">Microsoft Power Platform</a>		2 warnings	4 failures	2 manual checks
<a href="#">SharePoint Online</a>			8 failures	2 manual checks
<a href="#">Microsoft Teams</a>	5 passes	6 warnings	4 failures	6 manual checks

**HELPING MINIMIZE IMPACT OF BECS**

Minimize lateral movement

Establish security baseline
