

ATTACKS ARE EVER EVOLVING. SO IS OUR TECHNOLOGY.

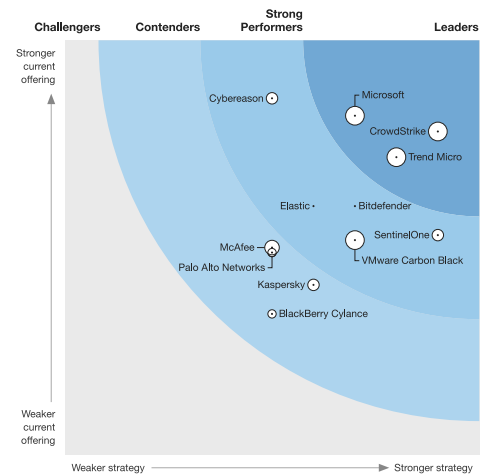

Cybereason's mission is to reverse the adversary advantage by empowering defenders with the technology to stop cyber threats. Our innovative approach is consistently recognized by leading technical publications and industry testing labs.

Forrester Wave: Endpoint Detection & Response, Q1 2020

"Cybereason future-proofed their EDR product by architecting it with the vision of combining the detection analytics synonymous with the EDR Market, with the breadth of collection associated with the security information management (SIM) space"

Cybereason is recognized as a strong performer in the most recent EDR Wave, and stood out as the highest rated current offering on the market.

AV Comparatives Business Security Certified, Q3, 2020

“The ultra-simple and fast client deployment process means that even inexperienced administrators would have no difficulty getting the product up and running.”

The certification from AV Comparatives shows how Cybereason’s ease of use in addressing potential threats via a visual timeline of an entire attack across ALL impacted devices, is key to preventing, addressing and remediating threats quickly. It also validates that the Cybereason Prevention solution is easy to install and reduces overall IT complexity for our customers.
