
CHAMPIONING THE DEFENDER

Sharing Your Story

Cybereason is the champion for today's cybersecurity defenders, like you. We are committed to always be the first to your fight, because we are defenders too, and as defenders we are stronger as one.

As a community we also believe it's critical to share with one another our unique and educational stories. Our team is working to highlight the importance of defenders like you and share experiences like yours that work to empower the defender community as a whole. As a defender we know you have key lessons to share that will help us all.

Every experience is different, and being able to share what you have learned can help a peer make the right decisions for their organization.

Are you ready to share your experiences?

Here's a few ways you can partner with us to share your insights and expertise:

- Case Studies
- Profile Blog
- On-Camera video testimonials
- Speaking Opportunities
- Webinar Panel Opportunities

The Cybereason Team will be here every step of the way to make this process simple for you!

Reach out to your CSM or email defenders@cybereason.com with your interest in sharing your story.
