Committed to Strong Protection

Cybereason was founded on a mission to reverse the adversary advantage. Standing behind our technology, people, and security operation processes, we are committed to developing a future-proofed technology that can outthink, outpace, and end attacks. We are backing that commitment with a breach protection warranty of up to $1 million in the event that a customer experiences a data breach within the protected environment.

Breach Protection Warranty

The Cybereason Breach Protection Warranty is available, free of charge, to customers purchasing the Cybereason Ultimate package. This comprehensive endpoint security package combines the industry-leading prevention, detection, and response capabilities of the Cybereason Defense Platform with the knowledge and 24x7 coverage of our Cybereason MDR defenders. All of this is bolstered by a $1 million breach protection warranty. Subject to terms and conditions of the policy.
Why Cybereason?

Made for Your Mission

The Cybereason Defense Platform delivers a complete and integrated endpoint security solution. It combines prevention with endpoint detection and response (EDR), along with threat hunting across all endpoints and devices. It’s ideal for enterprise security teams of all sizes. Empower your security analysts with comprehensive threat protection beyond anything else in the market.

Battle-tested Defenders Standing By

Cybereason brings a wealth of knowledge and proven expertise into your daily operations. The Cybereason Defenders, backed by the world-renowned Cybereason Nocturnus research team, brings an offensive-security mindset and access to knowledge, tools and resources built from decades of experience. With access to threat hunters around-the-clock, you are empowered to outmaneuver sophisticated adversaries that leverage malware, spyware, and ransomware, as well as more advanced attacker techniques, and continue to mature your security operations program.

Best Response - Every Time

Cybereason MDR handles a broad array of threats across all endpoints, only escalating the most important threats to your team. Our team is built to operate as one unit, armed with leading technology to prevent, detect, hunt, and respond to threats 24x7x365. From real-time root cause analysis to automated compromise containment, Cybereason’s team works to reverse the adversary advantage. Cybereason MDR prevents cybercriminals from taking advantage of and obtaining access to the enterprise network, systems, and most importantly - your data.

Customers put their trust in Cybereason because we develop best-of-breed products, hire the best security defenders, with decades of security operation excellence that Cybereason stands behind with up to $1 million breach protection warranty.

About Cybereason

Cybereason is the champion for today’s cyber defenders with future-ready attack protection that extends from the endpoint, to the enterprise, to everywhere. The Cybereason Defense Platform combines the industry’s top-rated detection and response (EDR and XDR), next-gen anti-virus (NGAV), and proactive threat hunting to deliver context-rich analysis of every element of a malicious operation (Malop). The result: defenders can end cyber attacks from endpoints to everywhere.
