

CYBEREASON MDR ESSENTIALS

Overview

The cybersecurity landscape continues to evolve, and cyber attacks are becoming more complex. As a result, organizations are being forced to build and implement robust cyber security defenses that can be difficult to implement and manage. Time, adequate resources and staffing have become a challenge, and organizations are still too often the victims of a cyber attack.

Cybereason managed detection and response (MDR), offers a Managed Endpoint Detection and Response solution that provides around-the-clock protection that ensures your organization's network is protected from the most advanced security threats. The MDR Essentials package includes a number of critical capabilities designed specifically to hunt, detect, triage and remediate threats before a breach can occur.

KEY BENEFITS

- Immediately improve security posture
- Around-the-clock security with 24x7x365 network monitoring, notifications and guided response
- Optimized security operations
- Eliminates alert fatigue with automatic malicious operation (MalOp) scoring and prioritization
- Immediate security impact and ROI
- Fastest detection, triage and time to remediation on the market

Cybereason MDR Delivers Real Value Instantly

24x7 Security Coverage:

Cybereason has SOCs and threat hunters located around the globe, ensuring that your network is monitored every minute of every day.

Optimize Security Operations:

Cybereason MDR Essentials is managed by the Cybereason Global Security Operations Centers (SOC) which allows organizations to free-up valuable time and resources to address additional areas of need.

Eliminate Alert Fatigue:

The Cybereason Defense Platform assigns every MalOp a MalOp Severity Score that prioritizes threats and ensures that a critical event is never missed.

Immediate ROI:

Cybereason MDR Essentials delivers instant impact and realized value by reducing costs associated with security training, additional staffing, network maintenance, and breach management.

CYBEREASON MDR ESSENTIALS

MDR Essentials Features:

- **24x7 MalOp Monitoring and Triage:**

Cybereason threat hunters and responders provide around-the-clock coverage, ensuring your network always secure.

- **Automated Threat Hunting:**

Harness cross-domain defensive and offensive security expertise infused with superior technology. Identify Indicators of Behavior (IOB), perform threat hunting, and get visibility into all endpoints, all users, all communications, all MITRE ATT&CK techniques, and most important the complete compromise assessment from root cause.

- **Contextual Notifications:**

The Cybereason MDR Defenders provide you with notifications of threats prioritized by severity and enriched with the right context for remediation. Furthermore, you control all of this within the Cybereason Defense Platform for ongoing communications and later audit use.

- **Detailed Response Recommendations:**

For every new MalOp, the Cybereason MDR team will provide you with the complete root cause investigation and a definite response recommendation for compromise containment.

- **Pre-Negotiated IR Retainer**

A pre-negotiated IR retainer ensures that help will always be available in the event of a major security incident. Cybereason incident responders stand ready to assist and will make sure that any threat is fully remediated and get you back to business fast.

About Cybereason Services

Cybereason is the champion for today's cyber defenders with future-ready attack protection that extends from the endpoint, to the enterprise, to everywhere. The Cybereason Defense Platform combines the industry's top-rated detection and response (EDR and XDR), next-gen anti-virus (NGAV) and proactive threat hunting to deliver context-rich analysis of every element of a malicious operation (MalOp). The result: defenders can end cyber attacks from endpoints to everywhere.

MALOP SEVERITY SCORING + EXTENDED RESPONSE (XR)*

Cybereason MDR automatically assigns every detected MalOp a MalOp Severity Score that helps security teams gain further insight into an attack, and ultimately triage and remediate threats faster with XR:

- Detect a threat < **1 minute**
- Triage a threat < **5 minutes**
- Remediate a threat < **30 minutes**

**Available as an add-on capability to the MDR Essentials Package*

CYBEREASON MDR ESSENTIALS

Continuous 24x7 MalOp Triage & Monitoring	✓
Automated Threat Hunting	✓
Proactive Email Alerts	✓
Detailed Response Recommendations	✓
MalOp Root Cause Investigation	✓
Monthly Threat Findings Report	✓
Cross-Domain Defenders Expertise	✓
Proactive Phone Notification for Critical MalOps	✓
Pre-Negotiated Remote Incident Response Retainer	✓

✓ Included
